Our Mission Statement

"The educational community will assist all students in maximizing their academic achievement and personal responsibility."

Our Vision Statement

Little Lake Elementary will aspire to the highest level of excellence in teaching, learning and positive behavior. We believe that school staff, parents and the community will work as a collaborative partnership to benefit all students in their academic success. We are dedicated to providing a nurturing, challenging and creative learning environment that celebrates diversity with compassion and acceptance.

School Profile

Little Lake Elementary was established in 1899 and is currently in its 108th school year. We are proud of our heritage and our long standing tradition of a commitment to excellence. This is appropriately reflected in our Mission Statement: "Little Lake Elementary is to assist all students in maximizing their academic achievement and personal responsibility." We are committed to a child centered learning environment with the highest level of excellence in teaching, learning, and positive behavior. We believe that school staff, parents and the community will work as a collaborative partnership to benefit all students in their academic success. We are dedicated to providing a nurturing, challenging and creative learning environment that celebrates diversity with compassion and acceptance.

Currently, Little Lake has 43 classrooms. Thirty-four classrooms are general education classes in grades K thru 5 and nine classrooms are SDC classes. Six of the SDC classes are severely handicapped elementary and preschool programs which draw their attendance from both inside and outside our district boundaries. We have embraced these programs and welcomed them to our Little Lake family.

To effectively maintain our high teacher expectations as well as continually strive to exceed them, change is inevitable and our staff is learning that collaboration is essential. We are a PLC (Professional Learning Community). We have revised our Mission and Vision Statements (as displayed above in bold print) so we are able to refocus our efforts in an organized manner that will benefit all students.

Little Lake's teaching and support staff has grown to 100 members with more than 850 years of successful teaching experience. To maintain a Tradition of Excellence, our Little Lake staff continues to hone skills through collaboration, staff development and the utilization of assessment. This dedication drives our instruction.

We exist to educate, elevate and encourage our students. Our practices in the classroom, implemented student programs, and after school involvement create a child centered learning environment. Our parents, staff, and community work collaboratively for the benefit of all students. Children come first at Little Lake Elementary.

District Profile

Hemet Unified School District covers one of the largest geographic areas of any district in California. It covers over 700 square miles of very diverse topography; from valley flatlands, to foothills, to mountains. It serves a growing community with a current enrollment of over 22,000 students. Preschool centers at seven school locations, eleven elementary schools (K-5), three elementary/middle schools (K-8), four middle schools (6-8), four comprehensive high schools (9-12), one continuation high school (11-12), a vocational education focused charter school, a science-based charter Middle School, an Adult Education Center, Independent Study Programs, a Home School Program, and a self-paced on-line instruction program offer a wide variety of learning opportunities for students of all ages.

Educational programs are designed to be flexible enough to provide a positive educational environment for all students, yet structured enough to ensure attainment of the California Content Standards and passing the California High School Exit Exam. With the support of the community, school staffs have developed highly successful programs in music, agriculture, and athletics.

Hemet Unified School District's Core Values

1. It is the District's responsibility to provide a structure and framework in which students and staff can succeed.
2. All students can develop their intellect and improve their academic achievement level in each subject each year.
3. It is the District's responsibility to recruit, train and retain the very best staff to work in the Hemet Unified School District.
4. Good first teaching is the most powerful tool for improving student achievement.
5. It is the District's responsibility to provide alternative education opportunities that create pathways to success for students who do not do well in a traditional setting.
6. The maintenance and development of students' nutritional and physical well being supports and enhances intellectual development and academic achievement.
7. Participation in activities such as academic competitions, music, drama, sports, clubs and other "non-academic" endeavors develops the human spirit and provides balance between the intellectual, physical and emotional/social development of our students.
8. The quality of interaction with our community, the quality of our published works and the state of our facilities all reflect what we think of ourselves as a district.
9. It is the District's responsibility to respond positively to the changing needs of our community and students.
10. It is the District's responsibility to ensure that the allocation of fiscal resources supports the Core Values of the District.

School Site Safety Plan

SB187 Safety Plan

Date the plan was last updated: September, 2010

Date the plan was last reviewed by the staff: October, 2010

The Comprehensive Safe School Plan includes data regarding school crime, safe school procedures and compliance with laws including: (1) child abuse reporting, (2) disaster response, (3) suspension and expulsion policies, (4) notification of teachers of dangerous pupils, (5) sexual harassment, (6) schoolwide dress codes prohibiting gang-related apparel, (7) procedures for safe ingress and egress from school, (8) procedures to ensure a safe and orderly environment conducive to learning, and (9) rules and procedures on school discipline adopted pursuant to Ed Code Sections 35291 and 35291.5. A copy of the plan is available for inspection by the public at each school.

The campus is completely enclosed with fencing to ensure the safety of the school's patrons and staff, as well as reduce vandalism and other illegal activities during the times school is not in session. Upon their arrival at school and throughout the school day, Little Lake students are well supervised by teachers, supervision aides, an assistant principal, and the principal. Every classroom has adequate space and all students have access to core curriculum materials.

All visitors and volunteers are required to sign in at the office, state their business at the school, and show identification. They are provided with a visitor tag to wear while on school grounds. They must return to sign out at the office at the end of their visit.

A clean, safe, and secure teaching and learning environment is the highest priority to Little Lake administration and staff.

There is a functioning Safety Committee that continually monitors the school's safety plan and preparedness. Fire drills are conducted monthly and a disaster preparedness plan exists for emergencies. Staff is trained in emergency procedures, including evacuation routes and safety checks.

Facilities Maintenance

Date of Most Recent Inspection: 8/4/10

The school, built in the early 1900's on 10.87 acres, currently has 22 permanent rooms and 22 relocatable classrooms. There are also administrative offices, a library, multi-purpose room, computer lab, and a disaster shed containing disaster supplies.

This table displays the results of the most recently completed school site inspection to determine the school facility's good repair status.

Professional Development

The school district provides all certificated and classified members with opportunities for professional growth and training in a variety of programs so that all teachers and paraprofessionals may become highly qualified under the No Child Left Behind law. The focus is on the delivery of a standards-based instructional program. District professional development priorities are outlined in the current LEA addendum as Curriculum Specific Trainings in Language Arts and Mathematics, Administrator Training Program, English Now, BTSA Induction Support for year one and two teachers, and specific Special Education trainings. Peer Assistance Review (PAR) is available to veteran teachers who need unique structure and support. Achievement data is used to determine site support and priorities in professional development. Moreover, seven Strategy Focused Instructional Coaches in language arts and mathematics, provide ongoing support in day to day professional development needs for all instructional personnel. The District revised the Technology Plan in 2006 to include opportunities for staff to increase skills in technology application and instruction.

Categorical funds at the district and site level are designated for a Director of Professional Development, a secretary and an eight hour clerk to coordinate district professional development. The 2010-2011 Professional Development "At a Glance" calendar is posted weekly to share professional development occurring throughout the district.

Little Lake Teachers are constantly involved in activities to enhance their teaching skills. Throughout the summer months, teachers are attending courses at various universities and workshops to keep abreast of technology, new philosophies and teaching methodologies. During the school year the school's staff continues to pursue further training at special workshops throughout California, in neighboring school districts, locally and in university classes. In-service training has been held on the Little Lake campus and the district office to assist our primary teachers and instructional aides in intervention programs, writing programs, technology, and various methods of improving student performance. The school district also provides consultant training for maintenance and custodial personnel as well as training for specialty positions and other training programs as requested. The school administrator receives regular training in such areas as evaluation, change process, interpersonal skills, curriculum standards, technology and instructional practices.

Curriculum and Instructional Materials

A District committee considers textbooks for recommendation on a cycle established by the State Board of Education and from a State adopted list. The committee meets to discuss current issues relevant to the subject matter, including student success, previously used textbooks, and instructional methods. The committee reviews demonstration copies of proposed textbooks, as well as listen to representatives describe the various highlights of the available materials. The review is followed by a pilot of materials that results in consensus by the committee of a recommended textbook. The textbook is forwarded to a K-12 Curriculum Council, which consists of teachers, parents, and community stakeholders, for review and approval. If the textbook is approved by the K-12 Curriculum Council, the textbook is forwarded to the Superintendent and the Governing Board for their review and approval. Each pupil in the district, kindergarten through grade twelve, is provided with standards-aligned textbooks or basic instructional materials that are consistent with the content and cycles of the curriculum framework adopted by the State Board.

In accordance with Education Code Section 60422(a) and 60119, the Governing Board certified on 10/5/10 that each pupil in the district, in kindergarten through grade twelve, has been provided with standards-aligned textbooks or basic instructional materials in each of the areas listed below (0% lack textbooks and/or instructional materials in any of the listed areas). The chart below outlines the textbooks adopted and used by Hemet Unified School District.

DataQuest and Access to Data

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners). Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

California Standards Tests (CST)

The California Standards Tests (CSTs) show how well students are doing in relation to the state content standards. The CSTs include English-language arts and mathematics in grades 2 through 11; science in grades 5, 8, 9, 10, and 11; and history-social science in grades 8, 9, 10, and 11. Student scores are reported as performance levels. Detailed information regarding CST results for each grade and performance level, including the percent of students not tested, can be found at the CDE Web site at <http://star.cde.ca.gov>. Note: Scores are not shown when the number of students tested is 10 or less, either because the number of students in this category is too small for statistical accuracy, or to protect student privacy.

Adequate Yearly Progress (AYP)

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria: 1) Participation rate on the state's standards-based assessments in English-language arts (ELA) and mathematics, 2) Percent proficient on the state's standards-based assessments in ELA and mathematics, 3) API as an additional indicator and 4) Graduation rate (for secondary schools).

AYP Overall and by Criteria

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

Federal Intervention Program

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (English-language arts or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Web site at <http://www.cde.ca.gov/ta/ac/ay/>.
